

INDEX

- acidification, 3, 4, 9-11
- air traffic
 - emissions of, 11, 12
 - noise from, 11-13
 - nitrogen dioxide from, 12
- air pollution
 - from traffic in FRG, 281
 - share of lorries, 281
 - abatement of, 286, 287
 - and driving behaviour, 288
 - reduction of, 291, 292
- aircraft,
 - emissions from, 176-180
 - standards for, 179
 - test cycle for, 179
 - reduction of NO_x-emission in, 180-182
- airfreight,
 - fraction of freight transport, 175, 176
 - growth of, 175, 184
- Beijing
 - urban road system, 345
- Brundtland report, 66
- bunker consumption, 164-166
- cabotage, 191, 255, 256, 258, 271, 274
 - European, 259
- CAD in shipbuilding, 155
- California
 - and transport, 81-89
 - and control of emissions, 81-89
- capitalism,
 - and ecology, 32
- carbon monoxide
 - concentration in Chinese towns, 345
- carbon dioxide,
 - emissions from goods transport in Europe, 29
- cargo vessels, 151
 - design of future, 151-154
 - improvement of existing inland, 160
 - saving of energy, 161
- centralisation of inventory, 236, 242, 243, 251, 252
- certification
 - for new vehicles, 84, 85
- cetane number of fuel, 134-136, 141, 142
- Chengdu
 - urban road system, 346
- CO₂, 8, 9
- CO₂-emissions,
 - from aircraft, 182, 183
- coastal transport, 164
- cold start conditions, 131, 133
 - and cetane number, 134
- combined transport, 79, 217, 221, 225, 242, 252, 313, 314
- commodity categories, 41, 45, 49, 50
- control of emissions
 - in California, 81-89
- cost benefit analysis
 - of transport, 187, 188, 203
- costs and distribution, 295, 296, 299, 300
- costs of transport, 243, 251, 252
- dangerous goods, 313-317
 - and guiding concept, 307-310
 - and risk management, 324
 - and transport, 301, 303, 304, 310
 - and traffic management, 302, 306-309, 311
 - and information systems, 308
 - closure of roads for, 313, 315, 316
 - encapsulation of, 313, 316, 317
 - municipal regulation, 302, 310
 - transport of, 319-325
- deliveries, 296-299
 - of stocks, 297
- design of vessels
 - and waterdepth, 154
- diesel engine,
 - marine, 168
 - and catalyst, 117
- diesel engine (heavy duty), 113-117, 132-140
 - fuel efficiency of, 117, 136
 - emissions from,
 - of carbon monoxide, 115
 - of hydrocarbons, 115
 - of nitrogen oxides, 113
 - of particulate matter, 94, 116
 - effect of injection timing on, 137, 141
- matrix of properties, 131-142
- variable geometry, 93

- Directive 88/77/EC, see test cycle
- Directive 84/424/EC, see noise test
- distribution
 - centre for, 297
 - channels for, 297, 299
 - urban, 331, 338
- distribution process, 296
- door-to-door operators, 323, 324
- driving speeds, 262-4, 268, 269
- drop volumes, 297

- EC Directive 88/77, see test cycle
- EC Directive 84/424, see noise test
- ECE regulations for good vehicles, 100
- economic growth,
 - basic trends in, 17-19
- economics
 - and environment, 14
- EDI, see Electronic
- electric vehicles, 97
- Electronic Data Interchange (EDI), 325, 338
- emission of CO₂,
 - from aircraft, 182, 183
 - rights for, 324
- emission standards, 273, 274
- emission reduction targets
 - in the Netherlands, 66
- emission ceilings, 272
- emission factors,
 - and speed dependence, 266, 267
- emissions
 - from goods transport in Europe, 28, 29
 - of NO_x and hydrocarbons, 28
 - of CO₂ and particulate, 29
 - empty trips, 50, 51, 55
 - encapsulation of motor, 126, 127
 - energy efficiency,
 - and aircraft, 183
 - and NO_x-emissions, 180
 - environmental pollution
 - scales of, 5
 - environmental policy
 - in the Netherlands, 65-67
 - European integration,
 - and economic growth, 20, 21
 - evaporation control
 - for fuel transfer, 86
- freight transport
 - and information technology, 331, 337, 338
 - freight transport (continued)
 - and physical planning, 331, 339
 - and towns, 279-291
 - and transport technology, 331, 337, 338
 - fuel cell,
 - and transport, 96
 - fuel efficiency, 235, 244, 245, 248, 250
 - and aircraft, 179, 180
 - fuel, 131
 - effects of volatility, 134, 139
 - effects of sulphur content, 139
 - effects of aromatic content, 140
 - effect of density, 140
 - effect of price, 322
 - matrix of properties, 131, 141
 - sulphur content of, 110
- fuels,
 - alternatives for diesel engine, 96
 - hydrogen, 97
 - low-sulphur, 95
 - specifications and standards, 81-89

- gas turbine combustor,
 - for road transport, 97
 - for aircraft, 176-184
 - and fuel efficiency, 179
 - variable geometry, 181-183
- goods transports in Europe,
 - in Mio t/annum from 1980 - 2010, 22, 23
 - in Mio tkm from 1980 -2010, 22, 23
- greenhouse effect, 4, 8, 9, 12

- harmonization, 191
- hydrocarbons,
 - emissions from goods transport in Europe, 28
- hydrogen, 97

- IATA, 175, 323
- ICAO, 176, 179
- infrastructure
 - and investment policy, 216
 - and modal split, 228
- injection, direct/indirect, 95
- inland shipping, 220, 221
 - and market structure, 221
 - of dangerous goods, 221
 - and transshipment facilities, 221

- inland navigation
 - in the BRD, 152
 - in the EEC, 152
- inland navigation (continued)
 - present fleet, 153
 - transport efficiency of, 153-161
- inspection,
 - roadside, 85, 86
- intermodal competition
 - distortion in, 216
- internal market, 272, 274
- internalizing
 - of external effects, 295, 296, 300
- just in time supply, 324
- just in time (JIT), 236, 246, 248, 249, 251, 252, 336
- liberalisation
 - of transport, 191-193, 212
- loading degree, 274
- logistics, 217
 - and reliability, 331, 336-339
 - of distribution, 295-300
- lorries
 - dimensions of, 271, 274
 - weight of, 271, 274
- lorry design
 - improvement of, 242, 251, 252
- low-noise lorries, list of, 286
- low-NO_x-combustor,
 - for aircraft, 180-182
- Mandeville, Bernard de, 31
- marine transport
 - in Europe, 257, 258
- measures
 - political business, 216
 - political traffic, 216
- mobility scenarios, 334, 335
- modal points, 336
- modal split, 189, 193
 - and technical innovation, 229
 - criteria for choice of, 226
 - decision for, 224
 - shift in, 223-232
- modal shift, 271, 273, 274
- mode of transport,
 - emissions for, 41-62
 - energy consumption for, 41-62
 - overall performance for the Netherlands, 47
 - specific emission, 48
 - unsafety, 54, 55
- night traffic,
 - ban on, 286
- nitrogen oxides,
 - emissions from goods transport in Europe, 28
- NMP and NMP-PLUS, 65
- NOB (Dutch Road Haulage Ass.), 271
- noise levels,
 - of trucks and buses, standards for, 101
 - of trucks and buses future standards for, 111
 - standards for, 101
- noise test, 120
- noise and rail traffic, 143-149
 - legislation in Switzerland, 143, 144
 - passive protection, 148
 - protection at source, 146, 147
 - protection at tracks, 144, 145
- noise, 5-7, 234, 246, 248, 298-300
 - and driving behaviour, 287
 - from traffic, 281-283, 284, 286, 287
 - in towns, 281-283
 - measurement methods for, 120-128
 - reduction of emissions of, 119, 290, 291
 - sources of, 120
- NO_x-emission,
 - from sea transport, 169
 - international regulation for, 173
 - reduction of, 172
 - from aircraft, 176, 177
 - reduction of, 180-182
 - at North Sea, 170, 171
