

Annex 2: Acronyms

Organizations/programmes

| | |
|-----------|--|
| GEIA | Global Emission Inventories Activity |
| IGAC | International Global Atmospheric Chemistry Programme |
| IPCC | Intergovernmental Panel on Climate Change |
| IUPAC | International Union on Pure and Applied Chemistry |
| NRP | National Research Programme on Global Air Pollution and Global Change |
| IGBP-GAIM | International Biosphere Geosphere Programme - Global Analysis, Interpretation, and Modelling |
| IGBP-GCTE | International Biosphere Geosphere Programme - Global Change and Terrestrial Ecosystems |
| FAO | Food and Agriculture Organization |
| OECD | Organization for Economic Co-operation and Development |

Institutes

| | |
|----------|--|
| CABO-DLO | Centre for Agrobiological Research |
| ECN | Netherlands Energy Research Foundation |
| IB-DLO | Institute for Soil Fertility Research |
| IBN-DLO | Institute for Forestry and Nature Research |
| IFP | Institute Francais du Petrol (France) |
| IIASA | International Institute for Applied System Analysis (Austria) |
| IRRI | International Rice Research Institute (Puerto Rica) |
| ISRIC | International Soil Reference and Information Centre |
| KEMA | KEMA Environmental Services |
| KNMI | Royal Netherlands Meteorological Institute |
| LUW-TPE | Wageningen Agriculture University - Theoretical Production Ecology |
| NIOZ | Netherlands Institute for Sea Research |
| NMI | Institute for Soil Fertility Research |
| NOAA | National Oceanographic and Atmospheric Administration (USA) |
| RIVM | National Institute of Public Health and Environmental Protection |
| TNO - MW | Netherlands Organization for Applied Scientific Research - Environmental Sciences |
| TNO - ME | Netherlands Organization for Applied Scientific Research - Environmental and Energy technology |

Models/databases

| | |
|-------|---|
| IMAGE | Integrated Model to Assess the Greenhouse Effect |
| EDGAR | Emission Database for Global Atmospheric Research |
| WISE | World Inventory of Soil Emission Potentials |
