ROUTLEDGE HANDBOOK OF INTERNATIONAL ENVIRONMENTAL LAW

This book critically explores the legal tools, concepts, principles and instruments, as well as cross-cutting issues, that comprise the field of international environmental law. Commencing with foundational elements, progressing on to discrete sub-fields, then exploring regional cooperative approaches, cross-cutting issues and finally emerging challenges for international environmental law, it features chapters by leading experts in the field of international environmental law, drawn from a range of countries in order to put forward a truly global approach to the subject.
